Media Guide Credits

The 2001 Navy crew media guide was produced by the Sports Information Office of the United States Naval Academy. Written and laid out by Assistant Sports Information Director Justin Kischefsky. Color photography and action photos by Phil Hoffmann and the Naval Academy Photo Lab. This guide was produced using a PowerMacintosh G3 and Adobe PageMaker 6.5 and Adobe Photoshop 3.0. Printed by Whitmore Print & Imaging.
Hubbard Hall, located on Dorsey Creek just a few hundred yards from the Severn River, is the home for Navy’s crew program. “The Boat-house,” as it is commonly called, is a three-story structure built in 1930 and accommodates over 200 athletes for their daily training regimen.

Navy’s rowing facilities were extensively remodeled in 1993 with funding for the extensive renovation provided by Zachary and Elizabeth Fisher. The state-of-the-art Fisher Rowing Center provides the Naval Academy with one of the finest collegiate rowing facilities in the country.

On the ground level, the foyer has new doors, ceiling, and lighting and new flooring. An extensive walkway has been created to the main entrance. New windows, carpeting and built-in furniture and shelving were added to the coaching staff offices.

In the shell storage area, new boat racks for the 28 eight-oared shells have been installed and new overhead doors have been added. This area also houses eight fours and five pairs that are shared by the six rowing squads. In the winter time, when the boats are derigged, these bays become exercise areas and include space for Concept II rowing machines. Perpendicular to the bays is a machine and wood shop where Navy’s full-time boatman works to keep the shells in racing form. Also on the first floor is a 3,500-square foot weight room which includes assorted weight machines, Gamut Ergometers and free weights. Bordering the east side of the building is a 10-man indoor rowing tank.

New locker rooms, showers, training spaces and offices for women athletes and coaches have been created. The men’s locker rooms include new lockers, floors, improved ventilation, new tile and equipment in the drying room.

A new exercise room was created by enclosing the existing balcony on the north side of the boathouse. Large windows lining the north wall and skylights running the length of the room create a beautiful training room. Included in this area are over 30 CII ergometers. A new third floor teaching classroom is equipped with state-of-the-art video equipment.

The north facade of the building has been renovated with new windows, doors, awnings and entranceways. A new walkway from the boathouse leads visitors to the Fisher Conservatory overlooking Dorsey Creek.

The “second deck” also includes the King Room, a paneled 1,600-square foot lounge. Adjacent to the King Room is the “N” Room, the Naval Academy Athletic Association dining facility which is used by Navy crews as a training table during spring vacation workouts.

Completing this fine rowing facility is a large concrete apron facing the water and three 85-foot double-access docks for launch and recovery of the shells.
Historic Annapolis, Maryland

The lovely and historic city of Annapolis is the capital of Maryland, as well as the seat of Anne Arundel County. In 1694, a new capital for the Province of Maryland was laid out, replacing the original capital of St. Mary’s City. Annapolis, named to honor Queen Anne of England, was granted a royal charter as a city in 1708. Annapolis can also lay claim to having been a capital of the United States. From November 1783 to August 1784, the Continental Congress met in the State House. It was here that they accepted George Washington’s resignation as commander-in-chief and ratified the Treaty of Paris, which ended the Revolutionary War.

The heart of downtown Annapolis has also been designated a National Historic District. Many fine examples of colonial architecture, including the State House, Hammond-Harwood House, Chase-Lloyd House and the William Paca House and Gardens, are open to visitors.

From its earliest days, Annapolis was also a busy port. Though hogsheads of tobacco are no longer rolled to the dock for transport, the water still plays a vital role in the city’s economy. With some 2,500 sailboats homeported in the harbor, it is no surprise that Annapolis is called the Sailing Capital of the Americas. The City Dock is the focal point of the Annapolis waterfront. Work boats outfitted for harvesting crabs and oysters are tied up next to sailing yachts and power boats. During mild weather, the Dock is the scene of concerts, boat shows and festivals. You can treat yourself to a crab cake sandwich from a local market and then watch the activity on the Dock. For a more formal dining experience, take a water taxi to one of the harborside restaurants.

Don’t let the small size of Annapolis (38,000 pop.) fool you. There are plenty of diversions — fine restaurants, boutiques, sailboat races, live theatre, art galleries and interesting museums — all of which combine to make Annapolis a delightful place to call home.

Mission of the Naval Academy

To develop midshipmen
morally, mentally and physically
and to imbue them with the highest ideals
of duty, honor and loyalty
in order to provide graduates
who are dedicated to a career of naval service
and have potential
for future development in mind and character
to assume the highest responsibilities
of command, citizenship and government.

Navy Blue and Gold

Now, college men from sea to sea
May sing of colors true;
But who has better right than we
To hoist a symbol hue?
For sailor men in battle fair,
Since fighting days of old,
Have proved the sailor's right to wear
The Navy Blue and Gold.

Four years together by the bay,
Where Severn joins the tide,
Then by the service called away
We're scattered far and wide;
But still when two or three shall meet
And old tales be retold
From low to highest in the fleet
We'll pledge the Blue and Gold.

The History of the Naval Academy

Secretary of the Navy George Bancroft laid the foundation for the Naval Academy when, in 1845, he established the Naval School at Fort Severn in Annapolis. Commander Franklin Buchanan served as the first superintendent. His faculty consisted of four officers and three civilian professors. There were 50 students. Initially, the academic and professional instruction required five years—the first and last at Annapolis, with the intervening three at sea.

In 1850, the Naval School became the United States Naval Academy. The following year, the Academy adopted its current course of instruction which includes four consecutive years at Annapolis, with at-sea training provided during the summers.

The Naval Academy moved to Newport, R.I., during the Civil War. In 1865, it was re-established at Annapolis under the leadership of Vice Admiral David Dixon Porter. During these early years, the Academy was one of the few institutions of higher learning offering a sophisticated undergraduate course in technical education.

The late 19th century saw immense changes in naval technology with the conversion from sail-powered, wooden ships to steam-powered vessels of steel, which also resulted in rapid developments in naval weaponry and tactics. With the Spanish-American War in 1898, the United States became a world naval power, and early Naval Academy graduates like George Dewey and Alfred Thayer Mahan made significant contributions to our national heritage.

The new century saw the nation's undergraduate naval college grow in size and academic prowess. The Class of 1895 had produced 41 graduates. By World War I, there were nearly 200 graduates each year, along with 2,500 reserve officers who received their training at the Academy.

With the entry of the United States into World War I, courses were shortened to three years, a program which remained in effect until 1921.

Between the two world wars, the curriculum and training equipment were modernized to keep pace with rapid advances in the naval profession and American education. In 1930, the Association of Ameri-
can Universities accredited the Naval Academy, and in 1933, an act of Congress authorized the Naval Academy to confer the degree of bachelor of science on graduates, beginning with the Class of 1931. Congress authorized award of the degree to all living graduates in 1939. The Middle Atlantic States Association of Colleges and Secondary Schools first accredited the Academy in 1947.

During World War II, summer sessions were instituted and the course was again shortened to three years. As during World War I, reserve officers, along with reserve midshipmen, also trained at the Academy.

In 1963, the Academy initiated the Trident Scholar Program, under which a number of exceptional students are permitted to pursue independent research during the first class (senior) year.

The 1964-65 academic year saw the civilian positions of academic dean and dean of admissions established and far-reaching changes made to the curriculum. The number of required core courses was reduced and, for the first time, each midshipman was allowed to pursue academic areas of individual interest for minor or major. Additional changes, introduced in the 1969-70 academic year, now require every midshipman to complete a major.

In 1975, President Gerald R. Ford signed legislation authorizing admission of women to the service academies. The first women midshipmen entered the Academy in July 1976 and graduated with the Class of 1980.

Midshipmen Life

It all starts with fourth class year. From their first days at the Academy, the fourth class midshipmen, or plebes, undergo an intensive and unabated program of military training and indoctrination. Physical and mental demands on them and their time seem never-ending. But it all has a purpose: the development of leadership ability, motivation, moral strength, physical skills and stamina.

However traumatic, Plebe Summer is a time which most midshipmen will remember for many years. New midshipmen are kept constantly busy learning basic skills in seamanship, navigation and marksmanship. Their pride and company spirit are boosted through infantry drill, small arms training, sailing Navy yawls and cruising in yard patrol craft. Their competitive spirit and desire to win are developed in activities such as athletics, dress parades and seamanship.

Plebe Summer is highlighted in August during Parents’ Weekend, when parents visit the Academy and witness the progress of their sons and daughters.

The arrival of the upperclassmen in mid-August heralds the beginning of the academic year. The plebes embark on a four-year course of study while plebe indoctrination continues.

September brings the excitement of football and other fall sports. During the football season, only selected units of the brigade travel to away games, but the entire brigade attends all home games and the annual fall classic, the Army-Navy game.

Commissioning Week, in May, brings the graduation of the first and the end of plebe year. Plebes signify the end of the first year at the Academy by scaling the smooth granite sides of Herndon Monument to replace, at its summit, a plebe cap with an upperclass cover.

Between plebe and third class years, midshipmen get their first taste of life at sea and their introduction to the enlisted men whom they will lead when commissioned as officers. Joining ships around the world, midshipmen perform a host of shipboard duties including standing deck, gunnery, operations and engineering watches. Midshipmen also have their first opportunity to visit foreign countries and experience different cultures.

Third classmen begin work in their academic majors and assume more responsibility in the military regimen at the Academy. Less emphasis is placed on indoctrination, leaving more time for studies, sports and extracurricular activities. It’s a welcome change from the rigors of plebe year.

During their third summer, midshipmen get their first training in four warfare specialties which comprise the naval service. They learn about submarines at New London, Conn.; surface warfare at Norfolk, Va.; naval aviation at Pensacola, Fla.; and the Marine Corps at Quantico, Va.

Second class midshipmen are assigned still additional military responsibilities. They are selected and trained to direct the Brigade of Midshipmen during absences of the first class. They are also assigned an important role in indoctrination of the new plebe class, which develops their leadership skills. In academics, the second class midshipmen enter increasingly advanced areas of study.

During their final year at the Academy, first class midshipmen complete the core curriculum and their academic majors’ course requirements. Many undertake independent research projects, and some begin graduate-level studies at nearby universities. The first class midshipmen also take over the responsibilities for plebe indoctrination. They also lead the brigade at parades, formal ceremonies and daily formations. They are responsible for the conduct, military smartness and competitive records of their units. The skills which the first class midshipmen develop this year will help them when they assume their leadership responsibilities in the Navy and Marine Corps following graduation.

One common denominator which binds the four years into a unit which will forever shape the life of an Academy graduate is the Honor Concept.

Established and administered by midshipmen, the Honor Concept is based on the principle that honorable individuals do not lie, cheat or steal. All midshipmen are expected to conduct their lives in accordance with the Honor Concept so that their decisions as midshipmen, naval officers and civilians reflect the highest levels of honorable conduct.
The Curriculum

With the aid of academic and military advisors, midshipmen design their own blend of the curriculum’s three elements:
• Courses providing the professional and leadership skills required in the naval service.
• “Core” requirements in engineering, social sciences, natural sciences and the humanities to ensure breadth in education.
• Completion of a major program in an academic subject chosen by each midshipman to develop individual interests and talents in depth.

The Naval Academy offers major programs in 18 subject areas: eight in engineering; six in sciences and mathematics, including computer science; and four in the humanities and social sciences. Seven of the engineering majors are accredited professionally by the Engineering Accreditation Commission of the Accreditation Board of Engineering and Technology.

Selected humanities and social science majors with excellent records are invited to enter the rigorous honors programs offered by the departments of economics, English, history and political science.

Outstanding students also have the opportunity to engage in independent study and research during their senior year. Those selected as Trident Scholars carry a reduced formal course load so they can pursue a major research project and prepare a thesis. They are assisted by one or more faculty advisors who specialize in the field of study.

A number of first class midshipmen who complete academic requirements early are encouraged to enroll in graduate classes at area universities. This Voluntary Graduate Education Program gives them the chance to graduate and receive commissions with their classmates, finish their graduate studies locally and then go to their first assignments with a master’s degree.

All midshipmen undertake professional military training, beginning on the first day of Plebe Summer and continuing through first class year. This includes classroom studies, drills and practical training at the Naval Academy and with Navy and Marine Corps units during summer programs. Navigation, seamanship, tactics, naval engineering, weapons, leadership and military law are among the areas studied. To advance and graduate, midshipmen must pass professional competency examinations covering general knowledge and subjects related to their service selection.

The Naval Academy’s physical education program complements academic and professional development of midshipmen. Instruction and training aim to develop individual skills and competitive spirit, lifelong habits of physical fitness, and the capability to withstand physical hardship when necessary. All midshipmen must complete the four-year program which includes the Physical Readiness test (twice annually), water survival, physical development, personal defense and lifetime carryover sports. Women participate in the same curriculum, including boxing, and wrestling.

Commissioning Week

Six days of parades, athletic events, colorful ceremonies, formal dances and receptions bring to a climax four years of challenging education and training.

One highlight of Commissioning Week is Color Parade. Each year, intra-brigade competition is conducted to determine which of the 30 companies stands highest overall on the basis of academics, intramural sports, professional drills and parade performance. During the parade, the color girl, who is selected by the Color Company commander, transfer the flags from the past Color Company to the new one.

The biggest social event of Commissioning Week is the ring dance for the second class midshipmen. An elegant formal affair, it is at this event that the midshipmen begin wearing their class rings.

First class midshipmen and their families attend the superintendent’s garden party and reception, plus other social events. Athletic, academic and professional awards are presented in Alumni Hall. The evening before graduation, everyone is invited to attend the farewell ball.

On graduation day, friends and relatives gather with the midshipmen at Navy-Marine Corps Memorial Stadium. After the diplomas are presented and the oath of office is administered, the senior midshipman of the new first class leads three cheers for “those about to leave us.” The graduates, led by the class president, reply with three cheers for “those we leave behind.” On the last hooray of this cheer, the 1,000 graduates toss their midshipmen covers into the air. According to tradition, the honor of putting on the new Navy Ensign and Marine Corps Second Lieutenant shoulder devices is shared by mothers and Commissioning Week dates.

The Naval Academy Yard

The Naval Academy is a national tourist attraction. Many of its buildings, as well as numerous statues and monuments, represent highlights in the history of the naval service and the Naval Academy. Several buildings and most areas of the Yard (as the campus is known) are open to visitors from 9 a.m. to sunset. Academic buildings and residences are closed to the general public, except on special occasions.

The Marine Corps, as well as the Navy, is represented at the Naval Academy. The Marine Barracks, quartered across the Severn River, provides the honor guard for the superintendent and marine guards at the tomb of John Paul Jones and at the Naval Academy Museum, which are open to the public.

Ricketts Hall, named for Admiral Claude Ricketts, was completed in 1966. Ricketts Hall holds the offices of the Naval Academy Athletic
King Hall is named after Fleet Admiral Ernest J. King, the Chief of Naval Operations from 1942-45 and one of the shapers of American global strategy. Located under the roof of Bancroft Hall, King Hall is one of the largest dining areas in the world, encompassing some 55,000 square feet. Each day nearly 13,000 hot meals are served in the wardroom. When the 4,000 midshipmen sit down for dinner simultaneously at 372 tables, they are all served within three minutes. The wardroom’s nutritionally balanced daily diet approximates 4,000 calories per midshipman.

Mitscher Hall, located between Bancroft Hall’s seventh and eighth wings, contains the Chaplain’s Center, an auditorium and an interfaith chapel. Mitscher Hall honors World War II Pacific Strike Force Commander Admiral Mark Mitscher.

Perhaps best known of all monuments in the Yard is that of the Indian warrior, Tecumseh. As “lord of football games” and “God of 2.0,” he has for years received a deluge of pennies and left-handed salutes as midshipmen pass by to exams or football games. Before the traditional game against Army, he is bedecked in full warpaint.

The figurehead, really of Tamanend, a Delaware chief, was brought to the Academy after the ship-of-the-line USS Delaware was scuttled. It was given several names before Tecumseh was generally accepted. When Tecumseh began to weather, the Class of 1891 replaced his timbers with bronze and the original figurehead was moved into the field house.

Tecumseh Court, the area at the front of Bancroft Hall, is one of the most photographed spots at the Naval Academy. It is the scene of pep rallies and innumerable formations. The noon formation of the Brigade of Midshipmen is held in the court whenever the temperature is 55 degrees or warmer. If the weather is too cold, or if it is raining, formations are held inside Bancroft Hall. The brigade forms at 12:10 p.m. weekdays and Saturdays and 12:30 p.m. Sundays and holidays. Visitors are always welcome to view meal formation in Tecumseh Court.

A small plaque in the center of Tecumseh Court marks the site of Recitation Hall, where classes were first held at the Naval Academy. Chauvenet and Michelson Halls house the Division of Mathematics and Science. The former is named after Professor William Chauvenet, one of the original seven faculty members when the Academy was founded in 1845. The latter honors Albert Michelson, a graduate of the Class of 1873, and the first American scientist to receive the Nobel Prize for physics.

Radford Terrace is named for the late Admiral Arthur Radford, Naval Academy Class of 1916 and chairman of the Joint Chiefs of Staff during the Eisenhower administration. Dedicated in May 1985, the terrace offers a sweeping view of the Academy grounds and chapel on one side and the Severn River on the other.

Maury Hall, named for distinguished 19th century oceanographer Matthew Fontaine Maury, hosts the electrical engineering and the weapons and systems engineering departments.

Mahan Hall, which includes the Academy’s largest auditorium, is named for the Naval Historian Alfred Mahan. Theatre productions, concerts and other cultural events, many open to the public, are staged in Mahan Hall. Also located in Mahan Hall is a reception area dedicated to Admiral Thomas Hart, Naval Academy Superintendent from 1931-34.

The Division of English and History is located in Sampson Hall, which was named after Rear Admiral William Sampson, Commander of Naval Forces in the Spanish-American War and a former Academy superintendent.

Tecumseh Hall is home to the Academy’s office of the football coaches, ticket offices for Navy athletic events and dormitory facilities for visiting athletic teams. The 80,000 square foot Halsey Field House, completed in 1957, is used for sports and physical training. Many offices of the physical education department are in this building, which also boasts squash and tennis courts, a 5,000-spectator basketball court, a 200-meter synthetic track and a display of sports trophies. The field house was named after Fleet Admiral William “Bull” Halsey Jr., a Class of 1904 Naval Academy graduate and a World War II naval hero.

The Lejeune Physical Education Center is the first building in the Yard named for a Marine Corps officer, Major General John Lejeune. It was completed in 1981, and its facilities include an Olympic-size pool and six practice wrestling rings. The center is also equipped for television coverage of various meets. The building houses an impressive indoor swimming pool, as well as a weight room, saunas, men’s and women’s locker rooms, a sports trophy area and the Midshipmen Sports Hall of Fame.

Ward Hall is home to the Academy computing center. Ward Hall was named after Commander James Ward, first commandant of midshipmen.

Adjacent to Ward Hall, Dahlgren Hall provides additional recreational facilities for the midshipmen, including an ice rink and restaurant open to Academy visitors. Dahlgren Hall, named for Rear Admiral John A. Dahlgren— inventor of large naval guns, is also the site of many dances and other special events during the year.

Some of the world’s most distinguished figures, including presidents of the United States and members of royalty, have been guests in Buchanan House, the residence used as the superintendent’s quarters. The lovely garden at the rear of the building is the site of many special events including the Commissioning Week garden parties. Buchanan House was named after Commander Franklin Buchanan, the first Academy superintendent.

Bancroft Hall, named after former Secretary of the Navy George Bancroft, is home for the entire brigade of 4,000 midshipmen. It contains 1,873 midshipmen rooms, nearly five miles of corridors and about 33 acres of floor space, making it one of the largest single dormitories in the United States. All of the basic and recreational facilities midshipmen need for daily living are found in the hall.

Association as well as offices for the football coaches, ticket offices for Navy athletic events and dormitory facilities for visiting athletic teams.

After the diplomas are presented and the oath of office is administered, the senior midshipmen of the new first class leads three cheers for “those about to leave us.” The graduates, led by the class president, reply with three cheers for “those we leave behind.” On the last hooray of this cheer, the 1,000 graduates toss their midshipmen covers into the air.

The United States Naval Academy

The United States Naval Academy

2001 Navy Crew

9
Rickover Hall, the center of the engineering studies complex, houses the Division of Engineering and Weapons and recognizes Admiral Hyman Rickover, father of the nuclear Navy.

The Division of U.S. and International Studies is located in the Nimitz Library building. The Naval Academy library is named after Fleet Admiral Chester Nimitz, commander-in-chief of the Pacific fleet in World War II. The library includes the Park Benjamin collection of 1,200 rare books dealing with the history of electricity and the 5,000-volume Harry Guggenheim collection containing the works of rocketry pioneer Dr. Robert Goddard. The library also has one of the world's great naval history collections.

The Naval Academy Museum, located in Preble Hall, contains artifacts of some of the most important episodes in our nation's history. Its collection of more than 50,000 individual items—an important reference source for the teaching of naval history—contains some of the finest ship models in the world, including the outstanding Rogers Collection. There is also a superb collection of maritime paintings; a large collection relating to the life and career of John Paul Jones; the table from the mess deck of the battleship Missouri on which was signed the instrument of surrender ending World War II; and the Beverly R. Robinson Naval Battle Print Collection, which depicts naval history and the history of print-making from 1500 to the present.

Most of the Academy's valuable collections are located within the museum in Preble Hall, but other items of interest are located in the chapel, Memorial Hall and in other buildings throughout the Yard. Museum items in Bancroft Hall include the flag hoisted by Commodore Oliver Hazard Perry at the Battle of Lake Erie on which were emblazoned the immortal words, “Don’t Give Up the Ship!”

Preble Hall is named after Commodore Edward Preble, commander of the naval attack on the Barbary stronghold of Tripoli in 1804.

Behind Preble Hall are the Tripoli Monument and Leahy Hall. The Tripoli Monument, one of the oldest monuments at the Academy, honors six young naval officers killed off the African coast in 1804 during the war with the Tripolitan pirates. Leahy Hall, named after Fleet Admiral William Leahy, provides offices for the dean of admissions, the registrar and director of candidate guidance. The Candidate Guidance Office is the source for information about how to apply to enter the Naval Academy.

Worden Field is the scene of weekly dress parades during the fall and spring. It is named for Rear Admiral John Worden, who commanded the Monitor during the Civil War.

A recent addition to the Naval Academy landscape is Alumni Hall. This $30 million facility is used for concerts, lectures, plays, convocations, men's and women's basketball and other athletic events. It includes a reception area and dining room.

Hubbard Hall, the boathouse, is located on Dorsey Creek. It was the first Academy building to be named in honor of a living man — Rear Admiral John Hubbard, Class of 1870, who competed on the crew team at that time.

Many of the offices providing logistic and administrative services to the Academy are in Halligan Hall, located by Gate No. 8. Halligan Hall, named after Rear Admiral John Halligan, was built in 1903. Halligan was the first director of the Naval Postgraduate School when it was located at the Academy.

Heading back toward the chapel and Maryland Avenue, the Officers' and Faculty Club is located across from Leahy Hall and is distinguished by its blue and white canopy.

The Administration Building near Gate No. 3 houses the offices of the superintendent and members of his staff. Across the street from the Administration Building is Herndon Monument, dedicated to the
memory of Commander William Herndon, who elected to go down with his ship when she sank.

The Naval Academy Chapel, with its copper-covered dome towering 192 feet, is the most imposing building in the Yard. Designed by Ernest Flagg, the cornerstone was laid in June 1904 by Admiral George Dewey. The chapel was completed in 1908. An addition was dedicated in 1940, increasing the seating capacity to 2,500 and changing the basic design from that of a Greek Cross to that of a Roman Cross. The much smaller St. Andrew's Chapel is located directly beneath the main chapel.

The massive entrance doors were designed by Evelyn Beatrice Longman in a competition sponsored by the National Sculpture Society. Many of the large stained-glass windows were made in the studios of Louis Comfort Tiffany, the famous American designer. The chapel also houses the crypt of John Paul Jones. Originally buried in Paris in 1792, Jones' body was located by the American ambassador to France in 1905. He was brought to the Naval Academy, and in 1913, enshrined in the sarcophagus of Grand Antique des Pyrenees Marble, sculpted by Sylvain Salieres. It is a fitting resting place for the gallant officer who gave the Navy its earliest traditions of heroism and victory. The crypt is open from 9 a.m. to 4:50 p.m. daily except Sunday, when the hours are noon to 4:50 p.m.

In John Paul Jones' crypt is his commission as a captain, signed by John Hancock; his membership certificate in the Society of Cincinnati, signed by George Washington; and the dress sword presented to him by King Louis XVI of France.

Down on the Severn River is the Robert Crown Sailing Center, the focal point of all sailing activities at the Naval Academy and home of the Intercollegiate Sailing Hall of Fame. The center was named in honor of Captain Robert Crown, a former president of the Navy League and an important supporter of the Naval Academy.

Near the Triton Light Point are a monument of World War II submarines and the foremast of the USS Maine, whose destruction in Havana Harbor in 1898 led to the Spanish-American War. The mainmast of the Maine is located in Arlington National Cemetery, making her the “longest ship in the Navy.”

The Hendrix Oceanography Laboratory is a multi-functional facility which features a wet laboratory and classroom space. Tanks, continually circulating salt water from the Severn River, offer a study of the living environment in the Chesapeake Bay. The laboratory was dedicated in 1985, in memory of the late Captain Charles Hendrix, a 1939 Academy graduate and a specialist in submarines and undersea warfare.

Luce Hall is the home of the Division of Professional Development, responsible for leadership, law, seamanship and navigation instruction. Luce Hall was named after Rear Admiral Stephen Luce, founder of the Naval War College and author of a basic navigation book. In front of Luce Hall is the Hiroshi Saito Monument, which was given to the Academy by the family of a former Japanese ambassador to the United States.
Anchors Aweigh

"Anchors Aweigh" was written by Lt. Charles Zimmermann, Musical Director of the Naval Academy in 1906, with the lyrics provided by Alfred H. Miles of the Class of 1906, as a fight song for the 1907 graduating class instead of the usual class march Zimmermann had composed for previous classes. The song made its debut at the 1906 Army-Navy game, and when the Midshipmen won the game, the song became traditional at this game. It gained national exposure in the 1920s and 1930s when it was heard on the radio and was in a number of popular movies. In 1997 a one-hour documentary on the history of Navy football, titled "Anchors Aweigh for honor and Glory", was produced by NFL Films. The film was deemed a success by both critics and fans alike.

Annapolis

The capital of Maryland, Annapolis is the home of the Naval Academy. Annapolis is located 30 miles east of Washington, D.C. and 25 miles south of Baltimore.

Bancroft Hall

Named after former Secretary of the Navy George Bancroft, the Hall is home for the entire Brigade of Midshipmen. It contains 1,873 midshipmen rooms, nearly five miles of corridors and about 33 acres of floor space, making it one of the largest single dormitories in the world. All of the basic facilities midshipmen need for daily living, and many for recreation, are found in the Hall.

Band

The Navy’s oldest continuing musical organization, the Naval Academy Band was formed in 1852 with 13 musicians. Now numbering 63 members, the band includes the wind ensembles, rock band, big band, woodwind and brass quintets, tuba and trombone quartets and the percussion ensemble. The band provides musical support to the Brigade of Midshipmen in parades and performances and entertains members of the academy family and civilian community throughout the year.

Bill the Goat

The first recorded use of a goat mascot for Navy athletic teams was in 1893 when an animal named El Cid (The Chief) was turned over to the Brigade by young officers of the USS New York. El Cid helped Navy to a 6-4 triumph over Army that year. Two cats, a dog, and a carrier pigeon have also enjoyed brief reigns as the Navy mascot, but goats have served without interruption since 1904.

Bill XXX is the 33rd goat mascot for the Academy and the 29th to carry the name “Bill.” He is taken care of by 15 goathandlers made up of five midshipmen from the first, second and third classes. The goathandlers undergo rigorous training prior to handling Bill on the field.

Co-Ed

For many years, the Naval Academy was a male-only institution. But all that changed when women were admitted in 1976. Today, 15 percent of the 4,000-member Brigade are women.

Distinguished Graduates

• 1 President of the United States
• 18 Members of Congress
• 4 state governors
• 4 Secretaries of the Navy
• 1 Secretary of the Air Force
• 3 Chairmen of the Joint Chiefs of Staff
• 2 Vice Chairmen of the Joint Chiefs of Staff
• 25 Chiefs of Naval Operations
• 8 Commandants of the Marine Corps
• 73 Medal of Honor winners
• 1 Nobel Prize winner
• 50 astronauts
• 33 Rhodes Scholars
• 10 Marshall Scholars

Enterprise Bell

From the bridge of the famed World War II aircraft carrier, it has been a part of the Naval Academy tradition since 1950. The late Admiral Harry W. Hill, then Superintendent, was instrumental in bringing the "E" Bell to Annapolis. It rings when the Academy observes Morning Colors and also during special ceremonies when Navy scores a majority of victories over Army in any one of the three sports seasons. The bell also rings during Commissioning Week for those teams that beat Army and have not participated in a previous bell-ringing during the academic year. The bell is stationed in front of Bancroft Hall.

Gokokuji Bell

The bell is an exact replica of the 1456 casting brought to this country by Commodore Matthew C. Perry following his expedition to Japan in 1854. The original bell, donated to the Naval Academy by Commodore Perry’s widow, was returned by the Navy to the people of Okinawa in 1987. Like the original bell, the replica is rung to celebrate football victories over Army. The bell is stationed in front of Bancroft Hall.
Hubbard Hall

Also known as the Boat House, Hubbard Hall, which is located on Dorsey Creek, was the first Academy building to be named in honor of a living man — Rear Admiral John Hubbard, Class of 1870, stroke on the crew at that time. Hubbard Hall underwent extensive renovations in 1993 and now includes the Fisher Rowing Center, a state-of-the-art facility for Navy's extensive crew program.

Midshipman

The word midshipman first appeared in English in the 17th century in the form of the word midshipsman to designate those men who were stationed "amidships," i.e. in the waist or middle portion of the vessel, while on duty. By 1687, however, the second 's' had been dropped to give the current form of the word. Midshipmen were originally boys, sometimes as young as seven or eight, who were apprenticed to sea captains to learn the sailor's trade.

In the early days of the American Navy, midshipmen trained aboard ship until they were eventually commissioned as ensigns. With the founding of the Naval Academy in 1845, it became possible, as it still does today, for a midshipman to enter the Navy directly from civilian life. The name of students at the Naval Academy changed several times between 1870 and 1902, when Congress restored the original title of Midshipman, and it has remained unchanged since.

Nickname

Navy's sports teams are referred to as the Midshipmen or Mids. The term "Middie" is inappropriate.

N-Star

Members of varsity teams who qualify for their varsity letter receive an N-Star if they participate in a victory over Army in any sport designated "Star" competition.

School Colors

Navy adopted Navy Blue and Gold as its colors back in 1892. At that time, each class at the Naval Academy had class colors. The Class of 1890 first used Navy Blue and Gold. In 1892, the minutes from the Naval Academy Auxiliary Athletic Association meeting reported, "The Committee reported favorable results of a conference with Naval Cadets as to the probability of adoption of Navy Blue and Gold as Academy colors."

Tecumseh

The familiar Native American figurehead facing Bancroft Hall and Tecumseh Court has been an Annapolis resident since 1866. Originally, the figurehead of the USS Delaware was meant to portray Tamanend, the great chief of the Delawares. It developed that Tamanend was a lover of peace and did not strike the fancy of the Brigade. Looking for another name, Midshipmen referred to the figurehead as Powhatan and King Philip before finally settling on Tecumseh, the fierce Shawnee chieftain who lived from 1768-1813. The original wooden statue was replaced after some 50 years in the open weather by a durable bronze replica, presented by the Class of 1891. Before Army-Navy competition in any sport, Tecumseh gets a fresh coat of war paint. He is also the target of left-handed salutes and a shower of pennies — offerings for victory.

Varsity Athletics

In keeping with the mission of the Naval Academy, 30 varsity sports — 21 for men and nine for women — are offered for midshipmen.

The Yard

The Yard, as the Naval Academy campus is called, features tree-lined brick walks, French Renaissance and contemporary architecture and scenic vistas of the Chesapeake Bay. The Bancroft Hall dormitory complex, the Cathedral of the Navy and other 81-year-old buildings make the Academy a National Historic Site.
Rick Clothier  
Head Coach • 27th Season

Navy's rich rowing history has been replete with outstanding success and top-flight coaches. The mantle of maintaining these constants has been borne for over two decades by Rick Clothier. Clothier will put his 27th Navy heavyweight crews on the water this spring, giving him the longest coaching tenure in the 131-year history of intercollegiate rowing at Navy. In that time his teams have amassed an impressive record: 135 wins, 61 losses and one tie. In Clothier's 32 years of collegiate coaching his teams have amassed a 175-62-1 record.

Over the last 18 seasons, Navy's heavyweight crews have a 126-43-1 record in the regular season, have won seven Jim Ten Eyck Trophies at the IRA Championships, three Varsity Challenge Cup titles for varsity eights and five Kennedy Trophy Cups for second varsity eights at the IRAs. Navy heavyweight boats have captured 26 gold medals at the IRAs since returning to the regatta in 1980.

Just as important to Clothier is the development of his oarsmen as persons and their preparations for their careers. "Wins and losses are just one barometer and, without question, we will always seek to be successful in this regard. However, here at the Naval Academy, it is particularly important that our rowers understand their athletic experience is a very substantial element in their undergraduate experience. The opportunities for personal growth are nearly limitless within this program. It is very important to me that we are also successful in helping our graduates to live more full and productive lives as a result of their rowing experience."

Clothier points with great pride to graduates who have become Rhodes Scholars and astronauts, as well as countless others who have held senior leadership positions in the military and the private sector as successful examples of this emphasis. "I really believe that these people have fully reached their potential because of lessons they learn within the parameters of the Navy rowing program."

Since 1980, 28 Navy oarsmen have successfully rowed their way onto U.S. national teams, representing the United States in world-level competition including the Olympics, Pan American Games and the World University Games.

Prior to his return to Navy, Clothier spent five years on the staff of his alma mater, the University of Washington. His lightweight squads were 14-0 in 1970 and 1971 and he directed the Husky freshmen heavyweight eights to a 26-1 record over the next three seasons. His freshmen and lightweight crews won four consecutive Western Sprint Championships from 1969-73. Clothier won two varsity letters as an undergraduate at Washington, coxing the Huskies national championship junior varsity crew in 1964 and the Husky varsity eight which won the Western Sprints title in 1965. He holds a B.A. in physical education and history and a M.S. in athletic administration from Washington. Following graduation, Clothier spent three-and-one half years as a reserve officer in the Marine Corps. His last tour of duty was spent at the Naval Academy as plebe crew coach and athletic recruiting coordinator.

Clothier has twice been coach of U.S. boats at the Pan American Games. In 1973, he directed two U.S. small boats to gold medals and, in 1983, he was coach of the U.S. eight-oared crew that captured a gold medal. In 1987, Clothier was coach of the U.S. small boats that participated for the first time in the World University Games in Yugoslavia.

Chris Allsopp  
Asst. Coach • 3rd Season

Chris Allsopp, a native of Locust Valley, New York, joined Rick Clothier's Navy Crew coaching staff in the summer of 1998. Their relationship, however, dates back to Clothier's tenure as the University of Washington freshman coach. Clothier recruited Allsopp, a two-time member of the U.S. Junior National Rowing Team, to Washington. Clothier's freshman crew, with Allsopp in it, went undefeated. Allsopp rowed another three years in Washington's varsity crew in which he suffered only three losses.

Allsopp competed on the international level, as well, having represented the United States on various national rowing teams. Twice his crews finished in fifth place at the World Championships and he won a silver medal in the double scull at the 1979 Pan American Games. In 1976 he was a spare on the U.S. Olympic Team and in 1980, he stroked the U.S. Olympic quad.

He made his coaching debut in 1981 at Wayne State University, serving as head coach. After a three-year stint he returned to the international scene, serving as the assistant sculling coach for the 1983 U.S. Pan Am Games and World Championship Teams. In 1984, he was an assistant coach with the U.S. Olympic Sculling Team. Following that he spent nine years as head coach at the University of New Hampshire. Prior to coming to Navy he served at South Kent School as Dean of Students, English teacher, and crew coach. Allsopp and his wife, Susie, have four children and live in Arnold.

Heavyweight Crew

Justin Betz
Bentonville, Ark. • Senior

Career: First place varsity pair at 1999 IRAs...
High School: A four-year letterwinner in track, swimming and cross-country... named track and cross country team captain... garnered all-state honors in track, cross country, and swimming... member of Future Farmers of America and Fellowship of Christian Athletes... recipient of the Congress Bundestag scholarship and studied for a year in Duisburg, Germany... Personal: Born April 19, 1978, in Grand Island, Neb., to Stewart and Barbara Betz... mathematics major... service selecting Marine Corps pilot... recipient of the Cox Fund Language Scholarship... member of Superintendent's List.

Andrew Clark
West Simsbury, Conn. • Senior

Career: Silver medalist coxswain in the frosh four at IRAs in 1998... varsity letterwinner...
High School: Captain of crew team... member of cross country ski team that won state titles from 1995-97... Personal: Born Oct. 11, 1978, to Dr. Paul J. Clark and Mary Doyle Clark... majoring in political science and economics... service selecting Naval intelligence... member of Commandant's List and Dean's List... Spring 2000 Second Regimental Operations Officer.

Scott Flaherty
Buffalo, N.Y. • Senior

Career: Won silver medal in the frosh four at 1998 IRAs... lightweight crew letterwinner...
High School: Captain of crew team... won gold medal at American Scholastic Championship Regatta... Personal: Born Sept. 5, 1979, in Buffalo, N.Y., to Thomas and Mary Flaherty... member of Dean's List... majoring in English and minoring in Spanish... service selecting surface warfare officer.

Tonu Mets • Team Captain
Kuressaare, Estonia • Senior

Career: Part of boat that won the 2000 Goes Cup and took second place at 2000 Windemere Cup... won 1998 George Washington Invitational... varsity letterwinner... High School: Part of basketball team that won state title... member of sailing team that placed second at the national meet... Personal: Born November 21, 1976, to Mart and Natalie Mets... naval architecture major... service selecting Estonian Navy.

Matthew Powers
King of Prussia, Pa. • Senior

Career: Stroked novice four to silver medal at 1998 IRA Regatta... varsity letterwinner...
High School: Placed first at 1994 national championships in JV quad and second in varsity single in 1997... Personal: Born March 11, 1979, to Bernard Powers and Diane Murray Powers... English major... service selecting Navy flight officer... member of Commandant's List and Dean's List.

Tim Strabbing
Hudsonville, Mich. • Senior

Career: Silver medalist at 1998 IRA Regatta... varsity letterwinner... boat took first place in 2000 Goes Cup... named to U.S. Rowing's First Team Academic All-America... High School: Won 10 varsity letters in cross country, basketball, and track... Personal: Born Jan. 2, 1979, to Robert and Rosalie Strabbing... political science major... service selecting Marine Corps ground... member of Superintendent's List every semester... 2000 Plebe Summer Regimental Commander... Fall 2000 Brigade Commander... received Marshall Scholar (two years to Oxford)... currently ranked #1 overall for the Class of 2001.

James Valentine
Pittsburgh, Pa. • Senior

Career: Varsity letterwinner... competed at 1997 and 2000 Head of the Charles... High School: Captain of swimming team... member of volleyball team that won 1997 state title... four-time first-place award winner at Pennsylvania Academy Junior Academy of Science... Personal: Born Aug. 23, 1979, to Jim and Janet Valentine... chemistry major... service selecting medical corps... member of Superintendent's List, Commandant's List and Dean's List.

Frederick Weisbrod IV
LaCrescent, Minn. • Senior

High School: Competed at 1996 and '97 state track and field championships... Personal: Born July 19, 1979, in Ft. Collins, Colo., to Rick Weisbrod and Jeanette Krohn... oceanography major... service selecting submarines... member of Commandant's List.
2001 Navy Crew

Heavyweight Crew

Season Outlook

Despite the loss of 13-of-18 letterwinners from last year, Coach Rick Clothier enters his 27th season typically optimistic. "I believe the pieces of the puzzle are in place for a fast crew," says Clothier. "This is a nice team with a very strong work ethic which should serve us well."

Clothier will look to his returning senior letterwinners to provide leadership and example, including team captain Tonu Mets, Tim Strabbing, James Valentine and Matt Powers. Other seniors contending for racing seats include Justin Betz, Scott Flaherty and Fred Weisbrod.

"All of our seniors are helping to lead the way toward our training and performance goals," adds Coach Clothier.

A large class of junior rowers should continue their development and many could challenge for racing seats. Included in this group are lettermen Josh Alms and Dan Tereshko, as well as Anthony Amodeo, Eric Boone, Matt Curnen, Will Jones, Chris Ryckebusch, Derek Smith, and Brandt Sword.

Several youngsters should find their way into the two top boats this spring. The top contenders for seats in their first varsity season include Bruce Baumgartner, Scott Miller, and Gordon Schmidt.

History

Its infancy came over 125 years ago when intramural crews raced in craft similar to whale boats.

Even though Navy's crews may have started out with those rather awkward whale boats, by 1869 the Midshipmen had progressed to what was considered then-standard four-oared racing rigs which enabled them to go against outside competition for the first time. A race against the Atlanta Boat Club in 1869 was cancelled when the latter withdrew. A year later, Navy had a four-oared race with the Quaker City Club of Philadelphia. It was paced by Cadet Hubbard as the Midshipmen handily defeated their rivals. However, in a second competition against the University of Pennsylvania later that year, the Mids were saddled with their first loss.

A gale carried the Navy boathouse and equipment away in 1877 and it wasn't until 1892 that the sport resurfaced at the Academy under the leadership of Winston Churchill, who was to become a noted author. In 1893, Navy purchased its first eight-oared shell from contributions made by the Brigade of Midshipmen. A year later, a new boathouse was built and two new eights added.

Navy began to row against outside competition again in 1897, beating Pennsylvania in a three-length victory over a three-mile course.

The crews were given a new boathouse at the mouth of Dorsey Creek in 1899 at a site not far from the present Navy rowing facilities. For the next two decades, there was a buildup of intercollegiate competition that was broken by World War I. In 1907, Navy made its first appearance in the Poughkeepsie Regatta, today's IRA, finishing third.

For five years around the turn of the century, Navy had a new coach each year, including the well-known Jim Ten Eyck in 1904. Finally in 1904, some stability was infused when Richard A. Glendon took over and Navy crews laid the groundwork for their winning heritage.

When World I ended in 1919, Glendon had more men out for the sport than he could seat in shells. Thus, he was able to come up with his strongest eight ever, recording an undefeated season. A year later, Navy lost only to Syracuse but rebounded to defeat the Orangemen in the National Regatta in Worcester, thus earning the right to represent the United States in the 1920 Olympics in Belgium.

Navy rowed to the Olympic Gold Medal by driving past Great Britain in the last 500 meters. The Midshipmen who rowed in the boat were the toast of the Brigade. In 1921 and '22, Navy won the Poughkeepsie Regatta.

A year later, young Dick Glendon took over for his father as Navy crew coach and the Midshipmen responded with an undefeated season, but were second at Poughkeepsie to a Western crew, Washington. The younger Glendon directed Navy to another unbeaten season in 1925 and its third varsity championship in five years at Poughkeepsie. After the season, he departed for Columbia.

Navy crews for the next several years were thwarted in their endeavors, just missing wins in several key races, but winning at Poughkeepsie in 1931. In 1932, Buck Walsh stepped in as head coach and the Midshipmen once more were among the eastern powers, winning the IRA in 1938.

The war years of the 1940s were lean for Navy crew and saw several opponents drop the sport and the cancellation of the Poughkeepsie Regatta for four years. There was one spark when in 1947, the Mids were the Poughkeepsie winners. In 1950, Walsh passed away, with the reins of Navy's crew program being handed to his close coaching associate, Russell Rusty Callow.

Callow became a popular figure at the Academy. After winning only one race in 1951, his varsity crew went unbeaten in 1952, '53 and '54. The 1952 eight was the U.S. Olympic crew and went on to claim a gold medal in Helsinki. During those three seasons, the Navy

Navy's 1952 crew team won an Olympic gold medal
Heavyweight Crew

In 1960, Callow was succeeded by Louis Lindsay. His crew that year finished second at the IRA, but a week later reversed its placing and beat California to win the Olympic Trials and the right for a Naval Academy eight to once again represent the United States in the Olympics. Navy and the University of California are the only two rowing organizations to have been the U. S. eight-oared representative three times in the Olympic Games.

In the 1960s, Navy continued to vie for national honors under Paul Quinn, who had taken over from Lindsay. The Mids won the Eastern Sprints in 1961 and the Varsity Challenge Cup at the IRAs in 1965.

In 1969, Carl Ullrich became the mentor at The Boathouse. The man who later would become Assistant Director of Athletics at Navy, Director of Athletics at Army and Executive Director of the Patriot League, guided the Midshipmen to the Eastern Sprints title in 1971.

In 1974, one of Ullrich's former plebe coaches, Rick Clothier, returned to the Academy as head coach. Under Clothier, Navy has added another starry chapter to its crew history. The varsity eight has finished in the top four in 12 of the last 18 years at the IRA, winning the championship three times and placing second four times. The second varsity won its event at the IRA five times and placed second twice in the last 18 years. The Midshipmen have also won the Jim Ten Eyck Trophy for overall team performance at the IRA seven times in the past 18 years, while placing second six times.

In fall competition, the Midshipmen have finished in the top five in the Championship Eight Event at the prestigious Head of the Charles Regatta in Boston in 11 of the past 15 seasons, including a string of four consecutive championship titles in the 1980s. Navy has recorded the top collegiate finish in this race in 13 of the past 19 years. Navy has finished first or second in the Championship Eight event at Philadelphia's Head of the Schuylkill Regatta in 15 of the past 19 years, including eleven first-place finishes.

In addition, 26 Navy oarsmen since 1980 have been members of United States national teams representing their school and country in world-wide competitions, including the Olympic and Pan American games.

A golden hue that grows a bit brighter.

2001 Navy Crew
Lightweight Crew

Dale Hurley
Head Coach • 5th Season

Dale Hurley returns to the Naval Academy for his fifth season of coaching the lightweight crew team.

A 1989 graduate of the Naval Academy, Hurley was a three-year letterman and team captain his senior year. Upon commissioning he continued rowing while attached to his first ship, the aircraft carrier USS Kitty Hawk (CV 53), rowing for the U.S. National Lightweight Crew at the World Championships.

In all, Hurley competed in five World Championships between 1990 and ’95, taking the bronze medal in 1991, winning the Lady’s Plate at the ’94 Henley and accruing over 16 national rowing championships as a competitive rower.

Coach Hurley started his coaching career at St. Joseph’s Preparatory in Philadelphia in 1990. During a brief tour at the Academy during the 1991-92 season, he coached plebe lightweight crew, and after a brief sabbatical from coaching, he returned as an assistant for the women’s crew team at Pennsylvania from 1993-94. His most recent coaching job before coming to the Academy full time in 1996 was assistant coach for the Tennessee Lady Volunteer program in 1995.

In addition to the Kitty Hawk, Hurley served aboard the amphibious ship USS Sumpter (LST 1161), where he earned his Surface Warfare Officer pin, and on another aircraft carrier, USS John F. Kennedy (CV 67). He resigned his commission in 1995 to devote his full energy to coaching, bringing a wealth of experience and knowledge to the Academy crew program.

Coach Dale Hurley and his wife, Beth, have two sons: four-and-a-half year old Cooper and ten-month old Ian.

Kit Vallhonrat
Asst. Coach • 3rd Season

Kit Vallhonrat enters his third year as the plebe lightweight coach. Vallhonrat is a 1993 graduate of the Academy and was a member of the varsity lightweight squad in each of his last three years.

In addition to rowing at Navy, he rowed for Harriton High School in Philadelphia and the Upper Merion Boat Club. Vallhonrat was a Surface Warfare Officer and, after graduation, served as navigator on two ships, the USS Tortuga (LSD 46), an amphibious landing ship, and the USS Thomas S. Gates (CG 51), an Aegis cruiser.

Already, this year’s novice squad shows a promising future. In November, for the second time in three years, the Plebes won the Belly of the Carnegie in Princeton, N.J., placing first and second out of 17 teams.

Season Outlook

The Navy lightweight crew team ended the fall season confident and optimistic for the spring.

The backbone of the team comes from the eleven returning senior midshipmen (two coxswains and nine rowers). These first class midshipmen, Nathan Charles, Joe Darcy, Dustin Engel, Andreas Gerbert, Team Captain Shaun Hayes, Chris Lare, Aaron Leong, Mark Payne, Jim Santiago, John Young and Matt Zarracina, are letterwinners who bring four years of experience at Navy to the team. They have positive attitudes and the ability to impart their enthusiasm to the rest of the team. To support these firsties in their last season at the Academy, there are many confident rowers filling four varsity boats.

The lightweights have high expectations for the spring after taking first in several races this fall. Dale Hurley, now in his fifth season as head coach of the lightweight crew team, is excited about the potential that the team shows for the spring and beyond. The freshman team, coached by Kit Vallhonrat, took first and second at the Belly of the Carnegie this fall and is moving towards a successful spring season. The sixteen members of the junior class show promise and talent that will propel the lights to further excellence in the future.

Guiding the team towards success, coxswains John Young, Jim Santiago, and Eric Larsen bring coxing experience and eagerness to the team.

“All three want to race and want to win,” says Coach Hurley.

The rowers are ready to take on a challenging season, while combining the rigor of academics and athletics. The lightweights have won the Dean’s Academic Excellence Award for highest average Quality Point Rating (QPR) of all varsity athletic teams for two years in a row. The spring season kicks off with a race against Cornell. Other races in the season pit the team against rivals Princeton, Georgetown, Harvard, and MIT. Finishing the dual season, the Lights face the University of Pennsylvania at home on the Severn River. From there, the team continues on to row at the Eastern Sprints in Massachusetts and the IRA Championships in New Jersey.

A strong start will make for a stronger finish and a winning spring season.

Assistant Varsity / Head Novice Coach: Kit Vallhonrat (3rd Season, Navy ’93)
Novice Manager: Graham Scarbro

Nathan Charles
Lebanon, Pa. • Senior

Career: Best 2K time of 6:23.0 ... two-time lightweight crew letterwinner ... 
High School: Earned letters in swimming (four) and cross country, while captaining both teams ... two-time all division and all-league honoree in 100 breaststroke ... PIAA state championship qualifier in the event ... YMCA National Qualifier in 100 breaststroke, 200 IM and 200-medley relay ... member of National Honor Society ...
Personal: Born June 29, 1979, to the Honorable Bradford H. Charles and Mrs. Barbara B. Charles ... political science major ... service selecting Naval special warfare.

Dustin Engel
Sundance, Wyo. • Senior

Career: Best 2K time of 6:42.5 ... member of second frosh boat at 1998 EARC sprints ... part of second varsity boat 1999 ... third varsity boat placed second at 2000 EARC sprints ... lightweight crew letterwinner ...
High School: Member of basketball and flag football teams ... took first place in region for Academic Decathlon ... Personal: Born Feb. 24, 1979, in Spearfish, S.D., to Donald Engel and Janet Lake ... mathematics major ... service selecting Naval flight officer ... member of Superintendent’s List for three semesters.

Joseph Darcy
Brightwaters, N.Y. • Senior

Career: Best 2K time of 6:39 ... placed first in the JV race at 1999 Patriot League Championship ... rowed for NYAC at 2000 American Rowing Championships ... two-time lightweight crew letterwinner ... 
High School: Member of varsity swim team for three years ... member of National Honor Society ...
Personal: Born Jan. 26, 1978, in West Islip, N.Y., to Joseph and Elizabeth Darcy ... ocean engineering major ... service selecting surface warfare ... member of Superintendent’s List and Dean’s List.

Andreas Gerbert
Opelousas, Calif. • Senior

Career: Best 2K time of 6:31 ... two-time lightweight crew letterwinner ... 
High School: Vice President of National Honor Society ... captain and letterwinner on cross-country team ... also earned letter in track ... member of soccer team ... class valedictorian ...
Personal: Born Jan. 18, 1979, in Houma, La., to Alton and Erika Gerbert ... computer science major ... service selecting Naval aviation ... member of Computer Science Honor Society.
Shaun Hayes • Team Captain
Council Bluffs, Iowa • Senior

Career: Best 2K time of 6:31.4 ... 2001 team captain ... two-time lightweight crew letterwinner ... High School: Earned letters all four years in swimming ... also captained squad ... competed in track & field, cross country and soccer ... student body treasurer as senior ... Personal: Born Aug. 4, 1979, in Council Bluffs, Iowa, to Michael and Roxann Hayes ... honors mathematics major ... service selecting special operations ... participating in Independent Graduate Education Program.

Christopher Lare
Norristown, Pa. • Senior

Career: Best 2K time of 6:43.9 ... boat won the 1999 George Washington Invitational 4+ event ... placed second in the EARC Sprints in the 3rd Boat Coaches Race ... High School: Member of National Honors Society and the Spanish Club ... senior editor of the school newspaper and the yearbook ... class salutatorian ... Personal: Born Oct. 17, 1978, in Pensacola, Fla., to James E. and Kathleen A. Lare ... aerospace engineering major ... service selecting Naval aviation ... member of Dean's List.

Aaron Leong
Fresno, Calif. • Senior

Career: Best 2K time of 6:46.3 ... High School: Earned letters in cross country and track ... captained cross-country team ... Personal: Born Sept. 1, 1979, in Fresno, Calif., to Douglas and Patricia Leong ... mechanical engineering major ... service selecting Marine Corps ground ... member of the 2001 Formula SAE Team.

Mark Payne
Palos Verdes, Calif. • Senior

Career: Best 2K time of 6:22 ... won two silver medals at 2000 Nationals ... rowed for the Nations Cup Training Camp ... rowed with the National Team Identification Camp ... two-time lightweight crew letterwinner ... High School: Member of varsity cross-country team for a school-record four years ... three-time cross-country team captain ... team won state title ... named all-league, all-district and all-star in two seasons ... member of varsity baseball team for all four years and team captain in two years ... garnered all-league and all-star honors in his career ... played varsity basketball all four years and was twice team captain ... named student body vice president ... two-year member of National Honor Society ... Eagle Scout ... Personal: Born Jan. 3, 1979, in Torrance, Calif., to Mark and Dianne Payne ... economics major ... service selecting Marine Corps pilot.

James Santiago
Burr Ridge, Ill. • Senior

Career: First plebe to earn letter as a coxswain on the varsity lightweight crew team ... High School: Four-year member of tennis team ... co-captained squad one year ... member of National Honor Society ... Personal: Born Nov. 8, 1979, in Berwyn, Ill., to Ceferino and Patricia Santiago ... aerospace engineering major ... service selecting Navy flight officer.

John Young III
Potomac, Md. • Senior

Career: Varsity letterwinner ... High School: Indoor track co-captain and letterwinner all four years ... member of National Honor Society ... Personal: Born March 19, 1979, in Bethesda, Md., to John and Yasuko Young ... aerospace engineering (astronautics track) major ... service selecting submarines ... Trident scholar.

Matt Zarracina
Loretto, Minn. • Senior

Career: Best 2K time of 6:31.2 ... won 1999 Patriot League championship ... rowed for Minneapolis Rowing Club during summer of 1998 ... rowed for New York Athletic Club during summer of 1999 ... two-time lightweight crew letterwinner ... High School: Played four years of baseball and two of basketball ... member of National Honor Society ... Personal: Born Feb. 16, 1979, in Champlain, Minn., to Robert and Kathleen Zarracina ... systems engineering major ... service selecting Naval aviation ... member of Tau Beta Pi and Golden Key honor societies.
History

1931
Navy lightweights win their dual with Syracuse; lose a dual race to Penn, and then place third at the National Henley Regatta in Philadelphia, Pa.

1933
Navy lightweights win their only dual with MIT, then go on to take third place at the National Henley Regatta in Philadelphia, Pa., behind Princeton and Columbia.

1934
Navy lightweights win their only dual race with Columbia.

1935
Navy lightweights win their dual with Ithaca College. Navy then finishes a close fourth at the American Henley Regatta in Philadelphia, behind Princeton, Penn and Columbia.

1956
Navy lightweight JV wins bronze medal at EARC Sprints.

1957
Navy lightweights, coached by Hubbell Davidson '45, win both duals with Penn and MIT and lose to Princeton. Navy then goes on to place fifth at the EARC Championships. Navy lightweight JV crew and plebe first boat win the EARC Sprints.

1961
Navy lightweight varsity wins bronze medal and JV crew wins gold at EARC Sprints.

1962
Navy lightweights, coached by Lt. White, go through an undefeated season to win first EARC Lightweight Championship in the history of Navy crew.

1969
Navy lightweight JV team wins bronze medal at EARC Sprints.

1970
Navy lightweight JV and first plebe boat win bronze medals at EARC Sprints. Navy finishes third in “Jope Cup” (team points standing for EARC League).

1971
Navy lightweight JV wins silver medal at EARC Sprints. Navy finishes third in “Jope Cup.”

1972
Navy lightweight varsity and JV teams win bronze medals at EARC Sprints. Navy finishes third in “Jope Cup.”

1974
Navy lightweight JV wins bronze medal at EARC Sprints.

1975
Navy lightweight varsity wins silver medal and JV wins bronze medal at EARC Sprints and place second in “Jope Cup.”

1976
Navy lightweight JV wins silver medal at EARC Sprints.

1977
Navy varsity wins silver medal at EARC Sprints.

1978
Navy first plebe boat wins silver medal at the EARC Sprints.

1979
Navy lightweight JV boat wins silver medal at EARC Sprints.

The Lightweight Varsity-Eight won the 1999 Patriot League title.
1980
Navy lightweight JV boat wins bronze medal and first plebe boat win gold at the EARC Sprints.

1981
Navy lightweights place second at the Head of the Charles, losing only to the Canadian National Team. They go on to the San Diego Crew classic for the first time and take fourth place in the grand finals. Team later wins both the Haines Cup (Harvard) and the Callow Cup (Penn) and take fifth place at the EARC Sprints Championship.

1986
Navy lightweights have a 4-2 record and win the Callow Cup (Penn) en route to a sixth-place finish at the EARC Sprints.

1987
Patrick Manion takes over as head coach Navy lightweight crew team. First plebe boat wins bronze medal at the EARC Sprints.

1988
The Navy lightweights have a 2-2 record in winning the Callow Cup (Penn) and placing fourth at EARC Sprints.

1991
Mike Hughes takes over as head coach of Navy lightweight crew team.

1993
Navy wins the Crawford Bay Crew Classic and goes 2-2 en route to taking seventh place at the EARC Sprints.

1995
Cmdr. Jim Snead '73, takes over as head coach. Third varsity wins gold medal at EARC Sprints and competes in the IRAs for the first time, taking fifth place in the Grand Finals.

1996
MAJ Greg Morrison ’77, takes over as head coach. The Navy lightweights have a 2-2 record and place fifth in the grand finals at the IRAs.

1997
Dale Hurley ’89, takes over as head coach of Navy lightweight crew team.

1998
Lightweight plebes place first and second at the Belly of the Carnegie.

1999
Navy lightweights win Patriot League Championship. Plebe team finishes in fifth place in the first boat and win gold in the second boat at EARC Sprints.

2000
Mike Hughes
Head Coach • 4th Season

A strong background in the sport makes Mike Hughes a valuable asset at the Navy Boathouse. Now in his 10th year at Navy, Hughes has coached the women since the fall of 1997 after three years as the Navy varsity lightweight coach and three years as the assistant heavyweight coach.

In his first year as the women's varsity coach, the squad posted a winning 13-6 mark. His second team finished with an impressive 13-7 record, highlighted by a silver medal performance at the Eastern Sprints by the novice four.

Hughes has been a coach in the sport since 1975. In 1977, he was a coach on the U.S. Junior National Rowing Team that competed in the Junior World Championships in Finland. He went on to manage numerous National Teams from 1978 until 1988 when he managed the U.S. Olympic Rowing Team in Seoul, South Korea.

From 1977 until 1986, Hughes coached at various rowing clubs including Boston Rowing Club, Viking Rowing Club, Riverside Boat Club, Bachelor's Barge Club, and the Vesper Olympic Training Center.

Hughes developed and served as the men's and women's head coach at Stockton State College, leading them to several MIRA championships and a second and fourth place at the Dad Vail Championships (Div II) during his five-year tenure. In 1987, Hughes went to the University of Pennsylvania to coach the lightweight freshmen. He led the Quakers to winning seasons in four of his five years, including one 8-0 regular season. At the Eastern Sprints, his 1989 crew earned a bronze medal and the 1990 crew won a silver.

In 1992, Hughes came to Navy to be the varsity lightweight coach. Hughes led his 1993 squad to a 5-2 record, its first winning season in seven years. In 1994, all three lightweight eights made the final in the Eastern Sprints Championship.

In the three years that Hughes coached the freshman heavyweight, the squads finished seventh, fifth and eighth at the IRA National Championship. In 1997, his second freshmen won a gold medal at the Eastern Sprints Championship.

A former school teacher and retired 29-year veteran of the Atlantic City Beach Patrol, Hughes also coordinates the Performance Enhancement training for the Naval Academy Athletic Association and the Naval Academy Varsity Athletic Teams.

Karin Hughes
Asst. Coach • 4th Season

Karin Hughes is in her fourth season as the novice women's rowing coach. In 1998, her novice four won a silver medal at the EAWRC Sprints. Prior to accepting the novice position, Hughes assisted with the freshmen men's crew and the varsity women's crew.

A 1991 graduate of the Naval Academy, Hughes was the captain of the varsity women's crew and served in the Navy as a supply corps officer following graduation.

As stroke of the 1999 Pan Am Double, Hughes won a silver medal in Winnipeg, Canada. A member of the 1997 National Rowing Team, she stroked the women's double at the World Championships at Aigubelette, France. In 1998, Hughes and her partner won the championship double at the Head of the Charles in Boston, Mass.

Richard Hamilton
Boatman

The man responsible for seeing that Navy's vast fleet of shells is ready for racing each week is the personable Richard Hamilton, who has been with the Naval Academy rowing program since 1990.

In addition to his arduous task of keeping the shells in good racing form, Hamilton often drives the boat trailer to regattas on the road.

A veteran of 19 years of boatbuilding experience before coming to the Academy, Hamilton first settled in Annapolis after serving two tours in Vietnam with the U.S. Navy. Upon his discharge, he began his training at Trumpy and Sons Boatyard in Annapolis. When Trumpy's closed in 1974, he was hired as a boatbuilder at the Small Craft Division of the North Severn Naval Station, where he worked for 16 years.

Hamilton lives in Annapolis with his wife, Mary Ann, and their two children, Kevin and Katie.

**Head Coach:** Michael Hughes (4th Season, Wilkes College '72)

**Assistant Coach:** Karin Hughes (4th Season, Navy '91)

**Officer Representative:** Lt. Melissa Gerace, USN

**Faculty Representative:** John C. Turner

**Team Captain:** Beth Dixon
Jean Dietz  
Beachwood, Ohio • Senior

Career: Boat won Novice 4 title at 1998 Patriot League Championship ... also won at 2000 Navy Day Regatta ... two-year letterwinner ... High School: Three-year letterwinner in swimming ... also captained team ... Personal: Born April 23, 1979, to Joseph and Gloria Dietz ... oceanography honors major ... service selecting surface warfare.

Beth Dixon • Team Captain  
The Woodlands, Texas • Senior

Career: 2001 team captain ... best 2K time of 7:24.5 ... three-year letterwinner ... High School: Member of National Honor Society ... Suma Cum Laude graduate ... Personal: Born June 16, 1979, in Tulsa, Okla., to Bill and Margie Dixon ... systems engineering major ... service selecting Navy pilot.

Michelle Falco  
Manassas, Va. • Senior

Career: Four-year letterwinner ... High School: Captain of crew team ... member of concert choir troubadours ... member of National Honor Society and Spanish Honor Society ... Personal: Born Nov. 29, 1979, in Fairfax, Va., to Robert and Regina Falco ... ocean engineering major ... service selecting Naval flight officer ... four-year member of women’s glee club ... president of Stowaways, a specialty singing group.

Christina Fix  
Poland, Ohio • Senior

Career: Four-year member of crew team ... letterwinner ... Personal: Born Feb. 11, 1976, in Youngstown, Ohio, to Marrin and Carol Fix ... electrical engineering major ... service selecting Navy pilot.

Kelly Haney  
Durham, N.H. • Senior

Career: Earned varsity letter as freshman in swimming ... four-year varsity letterwinner in crew ... High School: Captain of swim team which won state title ... also captained lacrosse team ... member of National Honor Society and National Art Honor Society ... Personal: Born Sept. 26, 1979, in Newport, R.I., to Eva Marie and Keith Haney ... English major ... service selecting surface warfare.

Dana Kaegel  
Severna Park, Md. • Senior

Career: Four-year member of crew team ... letterwinner ... High School: Captain of volleyball and basketball teams ... Personal: Born July 28, 1979, in Lancaster, Pa., to Dianna Kaegel ... computer science major ... service selecting Marine Corps ground ... First Class Midshipman of the Brigade, Fall of 2000 ... 20th Company Commander, Spring of 2001.

Dana Toale  
Old Bridge, N.J. • Senior

Career: Four-year rower ... letterwinner ... High School: Earned varsity letters in swimming and track ... Personal: Born Feb. 22, 1979, to Ed and Sharon Toale ... political science major with minor in Japanese ... service selecting nuclear surface warfare.

Sarah Woodman  
Bellevue, Neb. • Senior

Career: Best 2K time of 7:06 ... four-year rower ... letterwinner ... High School: Member of varsity track and field team ... placed sixth in state in the discus ... member of varsity soccer, varsity swimming and varsity softball teams ... Personal: Born Feb. 22, 1979, in Omaha, Neb., to Bill and Terry Woodman ... honors English major ... service selecting Marine Corps ground.
Women's Crew

Season Outlook

The 2000-01 Navy women's crew team is composed of over 50 rowers and coxswains from the four classes. This year's team has one of the largest senior classes in the history of the program with eight members of the class of 2001 returning. "I've never had such a large senior class and have really seen the benefit of their leadership through the fall and winter seasons" comments head coach Mike Hughes.

The class of 2001 is led by team captain Beth Dixon and comprised of first-boat veterans Sarah Woodman and Kelly Haney, varsity letterwinners Jean Dietz, Michelle Falco, Christine Fix, Dana Kaegel and Dana Toale. This group of seniors is talented and deep, a promising combination.

A strong class of juniors brings a great deal of experience to the crew. With returning letterwinners Meg Burns, Kelly Gray, Blythe Oraker, and Alexis Wright, coupled with strong performers Tanya Hayden, Monica Hurley, Megan O'Mara and Elizabeth Vary, the junior class will make a strong impact on the varsity this year.

The sophomore class also brings a great deal of talent to the team. Returning letterwinners Claire Coffey, Anne Gibbon and Betsy Stauffer, combined with strong contenders from last year's 10th place Eastern Sprints Novice program, bring strength and determination to the varsity boats.

The Novice class is one of the largest groups in the history of the program with 45 rowers and coxswains in the fall season. Eight of the rowers come with good high school experience and are teaming up with a number of strong beginners, learning how to row and race competitively. Their second-place finish at the Head of the Schuylkill in October demonstrates the potential of this year's novice class.

Facing 2000 NCAA qualifiers Virginia, Boston University, Syracuse and Northeastern during the regular season, the Navy women have a strong schedule to prepare them for the Eastern Sprints in May.

“Our spring season schedule is a demanding one which will push us to find our top speed. We are certainly looking forward to racing many of the fastest programs in the country," says Hughes.

History

In its brief tenure at the Naval Academy, the women’s crew team has built a winning tradition.

The sport made its initial appearance at Navy in the spring of 1978, during the second year that women were allowed to attend the Academy. In that first spring, the Midshipmen competed on the junior varsity level, racing Washington College, Trinity of Washington, D.C., and Virginia's second varsity boats, and winning all three regattas.

Women's crew was elevated to varsity status the following year and the Midshipmen won two varsity races. In 1980, only its second year of varsity status, Navy competed in the prestigious Dad Vail Regatta, the largest crew regatta on the East Coast. The varsity eight was third in the Grand Finals and the second varsity also earned a third-place finish.

The following year, the Midshipmen women raced in the well-known San Diego Crew Classic and completed the season with a 6-2 record.

The next three seasons found the women showcasing an 18-3 record, including an unbeaten 9-0 mark in 1984.

In 1987, the Midshipmen won the first of six consecutive Seitz Trophies for outstanding performances by women's crews at the Dad Vail Regatta. It was in 1992, however, that Navy enjoyed one of its grandest moments ever in Navy women's crew history—the Midshipmen not only won the Seitz Trophy at the Dad Vail, but the varsity eight captured a gold medal for the first time and the second varsity eight won its fifth-straight gold medal. The gold medal by the varsity eight allowed the women to claim the Division II national championship in the sport.

In 1991 and '92, the assistant coach for the women's crew team was LCDR Wendy Lawrence, who was a two-year letterwinner in the sport in its fledgling years at Navy. CDR Lawrence is now an astronaut in the U.S. space program.

In 1994, the Navy women won the Anita DeFrantz Trophy for overall performance by women's crews at the second annual Champion International Collegiate Regatta. In this event, the varsity eight was first, and with it the honor of being the national champions in women's crew on the Division II level. The first novice and second novice boats also earned first place showings. It was the second time in three years that the varsity eight was recognized as national champions.

In 1995, the varsity eight placed fifth in the Grand Finals and the second varsity was second at the Champion International Collegiate Rowing Championships. The program took a step up in 1995 by joining the Eastern Sprints League. Racing in the nation’s strongest conference, Navy has steadily improved its performance. The Midshipmen posted a 13-6 record in the spring of 1998 and also enjoyed an outstanding fall season.

The 1998-99 season was Navy's best season in the Eastern Association Women's Rowing Conference (EAWRC). Despite a slow start and losing top performers due to illness, the crew posted a 13-7 spring record. A highlight of the season came when the novice 4 notched the first medal earned in Navy rowing history, capturing a silver medal. Posting victories over conference rivals Georgetown, George Washington and Pennsylvania, the varsity eight finished the season by making the petite final of the Eastern Sprints.

The women's crew team has a history of producing world-class athletes in the sport. Current assistant coach Karin Hughes '91, was a member of the 1997 National Rowing Team and earned a silver medal at the 1999 Pan American Games. Laurie Coffey '99, represented the U.S. at the Under-23 World Championship and earned a gold medal at the 1999 World Military Games in Zagreb, Croatia, in the women's double.
Jack Lengyel
Director of Athletics

The 1999-2000 athletic season was a success at the Naval Academy, which has become the norm, not the exception, in Jack Lengyel's 12 years as Director of Athletics. Naval Academy athletic teams won 63 percent of their contests last year and continued their dominance over Army, posting a 23-10-1 record, including a 17-4-1 mark in star competitions. Navy produced 13 All-Americans, three Academic All-Americans, 10 student-athletes were named conference Player of the Year, three coaches were named conference or region Coach of the Year and six different teams won at least a share of a conference championship.

Although this year was definitely a good one, it was not out of the ordinary for Naval Academy athletics. Navy has won more than 60 percent of its contests every year in Lengyel's tenure and the Mids have won the season series against Army in 10 of those 12 years. Part of the reason for Navy's success is that Lengyel has hired outstanding coaches in football, men's and women's basketball, women's soccer, women's track, lacrosse, baseball, women's volleyball and men's gymnastics.

To compete successfully at the Division I level, Lengyel realized that not only do you need tremendous coaches, but outstanding facilities, as well. Lengyel has worked tirelessly to make the Naval Academy facilities some of the best in the country.

The litany of facility improvements is extensive. The $30 million Alumni Hall was completed in 1991 and is the venue for the Midshipmen men's and women's basketball teams. Five years ago, the Rear Admiral Thomas Hamilton Locker Room complex was constructed at Navy-Marine Corps Memorial Stadium, with a Football Walk of Fame. In that same time period, the Zachary Fisher Rowing Center was finished as part of a $850,000 renovation to Hubbard Hall, home of Navy's three intercollegiate crew squads, the Naval Academy Golf Course got a $250,000 clubhouse and a $500,000 watering system was installed. The spring of 1995 saw the completion of the $8 million Armel-Leftwich Visitors Center on the side of Halsey Field House, the opening of the $850,000 Admiral Fitzgerald Baseball Clubhouse at Bishop Stadium and the $9 million renovation and addition to Ricketts Hall. The newest facility in the works is the 4.2 million dollar Alumni Hall was completed in 1991 and is the venue for the Midshipmen men's and women's basketball teams. Five years ago, the Rear Admiral Thomas Hamilton Locker Room complex was constructed at Navy-Marine Corps Memorial Stadium, with a Football Walk of Fame. In that same time period, the Zachary Fisher Rowing Center was finished as part of a $850,000 renovation to Hubbard Hall, home of Navy's three intercollegiate crew squads, the Naval Academy Golf Course got a $250,000 clubhouse and a $500,000 watering system was installed. The spring of 1995 saw the completion of the $8 million Armel-Leftwich Visitors Center on the side of Halsey Field House, the opening of the $850,000 Admiral Fitzgerald Baseball Clubhouse at Bishop Stadium and the $9 million renovation and addition to Ricketts Hall. The newest facility in the works is the 4.2 million dollar Glenn Warner Soccer Facility, which will be done in time for the 2001 season. The facility will be equipped with men's and women's locker rooms for both Navy and the visiting teams, dressing room for officials, a training room, equipment storage rooms, restrooms and concession areas. The facility will also house a soccer "Wall of Fame." The Naval Academy Athletic Association also just completed renovations of the varsity tennis center through private donations.

Future new facilities that are currently on the drawing board are an approximate 35 million dollar expansion and renovation of Navy-Marine Corps Memorial Stadium, a new indoor track facility and a major renovation of Halsey Field House.

Prior to coming to Navy, Lengyel gained recognition as Director of Athletics at Missouri and Fresno State, and by his stature in the National Association of Collegiate Directors of Athletics. He is a past president of the latter organization and a past president of the Division I-A athletic directors. He is a member of the NACDA Division I-A Executive Committee and chairman of the NACDA Preseason Football Games Committee, which sponsors the Kickoff Classic and the Disney Pigskin Classic.

In 1990, he was elected to the Board of Directors of the National Football Foundation and Hall of Fame and to the Board of Directors of the United States Sports Academy. In 1991, he moved the Midshipmen from the Colonial Athletic Association to the Patriot League and elevated the women's intercollegiate program to Division I status. He was voted into the Summit County (Ohio) Sports Hall of Fame and was the 1991 Achievement Award winner from the Akron's Varsity "A" Association. In 1996, he was named to the Board of Directors of the College Football Association and chairman of the CFAs Athletic Directors Committee, and in 1997, he was named an honoree by the National Football Foundation and College Hall of Fame for his outstanding contributions to amateur football. Lengyel was a driving force behind the foundation's new program to include players and coaches from all divisions for induction into the College Football Hall of Fame.

The 1998-99 season was a memorable one for Lengyel on a personal level, as he was named the National Association of Collegiate Athletic Directors/National Invitation Tournament Athletic Director of the Year, received the Distinguished Alumni Award from Akron University and was given an honorary doctorate by the United States Sports Academy.

Lengyel's tireless efforts to promote the Naval Academy's varsity athletic program last year included overseeing the production and national airing (CBS) of a one-hour documentary on the history of Navy football. "Anchors Aweigh for Honor and Glory," produced by NFL Films, was deemed a success by both critics and fans alike.

Lengyel headed Missouri's athletic program from 1986-88, aggressively marketing the Tiger football and basketball programs. As Athletics Director at Fresno State from 1983-86, he revived a program that was on probation, improved old facilities and added new ones. Eight Bulldog teams achieved Division I-A top 20 ranking during his final 18 months there. The Bulldogs also won two California Bowl games and an NIT Championship in basketball.

Lengyel, a native of Akron, Ohio, won letters in football, lacrosse, swimming and track at Akron. He received his bachelor's degree in physical education from Akron in 1957 and earned a master's degree in education from Kent in 1960. He received a commission in the U.S. Army after completing the ROTC program at Akron, where he was the Distinguished Military Graduate. He later spent 12 years in the U.S. Air Force Reserve, achieving the rank of Captain.

His coaching career spanned a total of 18 years at all three NCAA levels, and he has been a head coach in football, lacrosse, baseball, wrestling and swimming on the collegiate level. He served on the staffs at Akron, Heidelberg, Cornell, Wooster, Marshall and Louisville.

In 1971, he went to Marshall to rebuild the football program there after a plane crash had wiped out the team and its coaches in 1970.

Lengyel and his wife, Sandra, have three children: David, a 1980 graduate of the Naval Academy and now a Lt. Colonel in the Marine Corps Reserve, who is currently in Russia as the manager of the Moscow Technical Liaison office for the International Space Station; Peter, a Commander in the Navy and a 1984 graduate of the Academy, is currently attending the Naval War College in Newport, R.I.; and Julie, a graduate of Kentucky. They also have six grandchildren.
